ROLE OF E-RESOURCES IN OUR
SUBJECT

- ✓ We can take an overview of the study area.
- ✓ Basic information regarding subject.
- ✓ We get photographs of plants.
- ✓ Introduction of those plants which usually grow in that particular region.

- ✓ We can easily store our data in USB or Hard disk.
- ✓ We can easily transfer data to any other person via E-mail.
- ✓ We can get sufficient data from “GOOGLE SEARCH” which saves time.
- ✓ We can verify our data with before study.

❖ Sometimes due to poor financial conditions, a student is not able to study n get extra knowledge, So for this Institutes must follow one procedure that every student should be given a Log in Id & password so that he/she can access internet and can store important & needful data.

LIFE OF THE TRIBAL PEOPLE

- We do not get the exact information when we need.
- Author citation is not specified in some plants name.
- Medicinal uses of medicinal plants are not stated.
- Network problem leads to lose of information.

❖ After collecting rough data from the tribal man we can store it in a form of soft copy which can be useful further during time of submission.
